Issued for Information of Producers  
Who Are Not Members of Cooperative Associations

Vol. V No. 3

March, 1961

**FEBRUARY UNIFORM PRICE \$3.74**

Dairy farmers who delivered Fort Wayne Grade "A" milk to handlers subject to the Fort Wayne Milk Order during February 1961, will receive a minimum uniform price of \$3.74 per hundredweight for milk testing 3.5%. A butterfat differential of 7 cents for each one-tenth of one percent that individual tests vary above or below the 3.5% standard will be used. This minimum price is subject to a 4 cent per hundredweight marketing service deduction and authorized hauling charges. The computation of the minimum blend price is shown on page 5 and the class prices on page 4.

The \$3.74 price for February 1961, is 1 cent below the February 1960 price. It is 5 cents below the January 1961 price.

**PRODUCTION AND UTILIZATION**

Approved producers shipped 9,964,691 pounds of milk to the Fort Wayne market during February 1961, of which 5,893,981 pounds or 59.1% was utilized in Class I. Production was down 7.2% from January 1961, but up 17.8% from a year ago in February. Class I utilization of producer milk was down 7.2% from January 1961, but up 10.6% from February 1960.

There were 836 producers on the market for February 1961, which is 9 less than January 1961, but 21 more than in February a year ago. Average production per farm per day was 426 pounds for February 1961. Daily farm production for January 1961, and February 1960, was 410 pounds and 358 pounds, respectively. Other comparable market statistics will be found on pages 2, 3 and 4.

**SOUTH BEND HEARING**

A hearing to consider amendments to Order #67, regulating milk in the South Bend-LaPorte-Elkhart marketing area will be held at the Oliver Hotel, South Bend, Indiana on March 14, 1961. The principal proposed amendment concerns the price handlers are required to pay into the pool for milk used in the manufacture of creamed cottage cheese.
